

Ozen Fernandes

Computer Science & Engineering Student

Mumbai, Maharashtra — +91 XXXXXXXXXX — yourmail@gmail.com

[GitHub](#) — [LinkedIn](#)

Professional Summary

Computer Science and Engineering student with a strong interest in Artificial Intelligence, Machine Learning, and Data Science. Experienced in Python programming, problem-solving, and system design through academic and personal projects. Continuously expanding knowledge in software development, full-stack technologies, and machine learning while building practical solutions.

Education

Fr. Conceicao Rodrigues College of Engineering Bachelor of Technology (B.Tech), Computer Science & Engineering	2025 – 2029
Thomas Baptista Junior College Higher Secondary Education	2023 – 2025
Notre Dame School Primary and Secondary Education	2011 – 2023

Technical Skills

Programming Languages: Python, C, C++, HTML, CSS, LaTeX

Libraries & Tools: NumPy, Turtle, Pandas, Tkinter, Seaborn, Matplotlib, Bext, Bootstrap, Git, Linux

Computer Science Concepts: Data Structures, Object-Oriented Programming, File Handling, Operating Systems Fundamentals

Other Skills: Problem Solving, Debugging, and Technical Documentation

Projects

Flooder Game (Python) [GitHub](#)

- Developed a terminal-based puzzle game with flood-fill mechanics and move tracking.

Personal Website (HTML, CSS) [Live Demo](#)

- Built a responsive personal website to showcase projects, skills, and education.

File Management & Automation Scripts (Python / PowerShell)

- Created utilities for searching, organizing, copying, and deduplicating files.
- Focused on workflow automation, performance optimization, and reducing manual effort.

Personal Knowledge Management System (Notion)

- Designed a structured productivity and learning system integrating note-taking, habit tracking, and knowledge management.
- Built custom dashboards and formula-based tracking workflows for long-term learning consistency.

Certifications

- The Complete Full-Stack Web Development Bootcamp
- Complete Python Bootcamp: From Zero to Hero (2025)

Areas of Interest

Artificial Intelligence, Machine Learning, Data Science, Software Development, Linux, Productivity Systems, Knowledge Management
